Today I Gave Away The Same PDF Three Times & Received another \$543.55. Tomorrow, I'll Do It Again.**

Mark Bishop - caboodl

Hi, My name's David Moore
I'm a 71-year-old retired Flooring Contractor.
My pension runs out before the end of the month..
So I understand how others today are struggling and also need to make some extra money and I want to help them.

Most manual workers like me assume they have no choice but to work more hours to make more money.

*This assumption is wrong.
I chose this instead.*

caboodl[°]

I chose caboodl because it simplifies the way regular people make money online, and because it includes everything people like me need.

It Sounds Easy, Doesn't It? Even though everyone says it's easy to make money online from recommending other people's digital products, and getting paid commission as a result (a percentage of what a customer spends) the reality is - it ISN'T that easy.

The Truth I discovered is that to actually make money from other people's digital products (which is called affiliate marketing) I would usually need to create at least one website page.

Then find a way of sending people who might be interested in the product I'm recommending to my page (they call this targeted traffic).

And lastly, work out a way of selling the product to those people (which is called converting, or conversion).

And that was a big problem for me, because honestly, I don't know how to do any of it..

...Which is why I looked for, and chose a product that was pretty much set up for me & included everything I needed.

But Those Weren't The Only Reasons.

There are a lot of options I could have chosen, some of which might well have been as good as caboodl, but none that struck a chord like this did.

Most of us searching for a way to make some money online are regular people just trying to get ahead, many of us aren't as young as we wish we were, most of us aren't flash, techy or super confident.

Yet most of the people offering these solutions are, they're either young, or flash, or super confident, or all of the above.

They're certainly not 59 year olds, with no qualifications, who spent 28 years working in construction, didn't start digital marketing until they were 43, and still made over \$4,900,000 online.

But Mark, the creator of caboodl is that person.

The fact that he is who he is, made the money he has, and still doesn't have a techy bone in his body resonated with me, giving me the confidence to choose caboodl.

That and the fact that caboodl is very easy & fair.

How Easy? & What Does Fair Mean?

Mark's opening paragraph to this document pretty much spells it out ***'Yesterday I Gave Away A PDF & Received \$349.85'***.

After logging into caboodl I put my affiliate link into a document which was already created for me, which becomes my unique PDF.

I then spend roughly 1 hour a day 3-5 times per week uploading 10 second B-Roll videos with text overlays, and value descriptions to Instagram.

Note: I don't have to be in the video & I never have to say a word.

At the end of each description I offer free access to my PDF, and give the PDF to anyone who requests it.

The PDF is my sales tool.

A percentage of the people I give the PDF away to will purchase a product through my link which is embedded in my PDF, and when they do, I receive a commission payment.

The commission I receive can be as much as \$349.85 for giving my PDF away to one person, but in most cases that 'one person' who buys will equate to \$96.85 commission.

What Does Fair Mean?

Fair means caboodl is built to give everyone the ability to start making money in days without needing to spend more than they can afford, or need to.

Instead of caboodl being priced at \$997.00 it's priced at \$17.00.

And that **one off payment of \$17.00** provides everything required & enables users to make up to \$96.85 commission for every PDF they give away (providing those who request the PDFs make purchases).

It's fair because even those who may not have the kind of money full solutions like caboodl normally cost, or require can still get started today, and still potentially make 5x what they paid for access, from one buyer.

Note: There are no limits on how many times I can give away my PDF or how much I can make doing so.

What About Additional Costs?

Another reason for me choosing caboodl over other potential options is the fact that **there are no additional costs required.**

I don't need to build pages, use page builders, pay for an autoresponder subscription, or pay for traffic.

Yes there are a couple of upgrades which unlock additional features and more commission, but they are options & never a requirement.

All I need is included with the \$17 I paid for caboodl, along with a phone, or camera, an internet connection...

And roughly an hour or so of my time, 3-5 times a week.

I mentioned the time it takes me last, because while caboodl is great, it only works if I use it. If I don't use it I won't make any money, which I guess is obvious, but sometimes the obvious needs to be stated.

Caboodl Is My Chosen Route.

Because:

- Using it doesn't take a lot of time, which means I have time to do other things instead of work.
- It includes everything, so I don't need to figure out how to sell or where to get traffic.
- It doesn't cost me anything to implement.
- It's very easy.
- And I can make money with it today, tomorrow, and for as long as I keep using it..

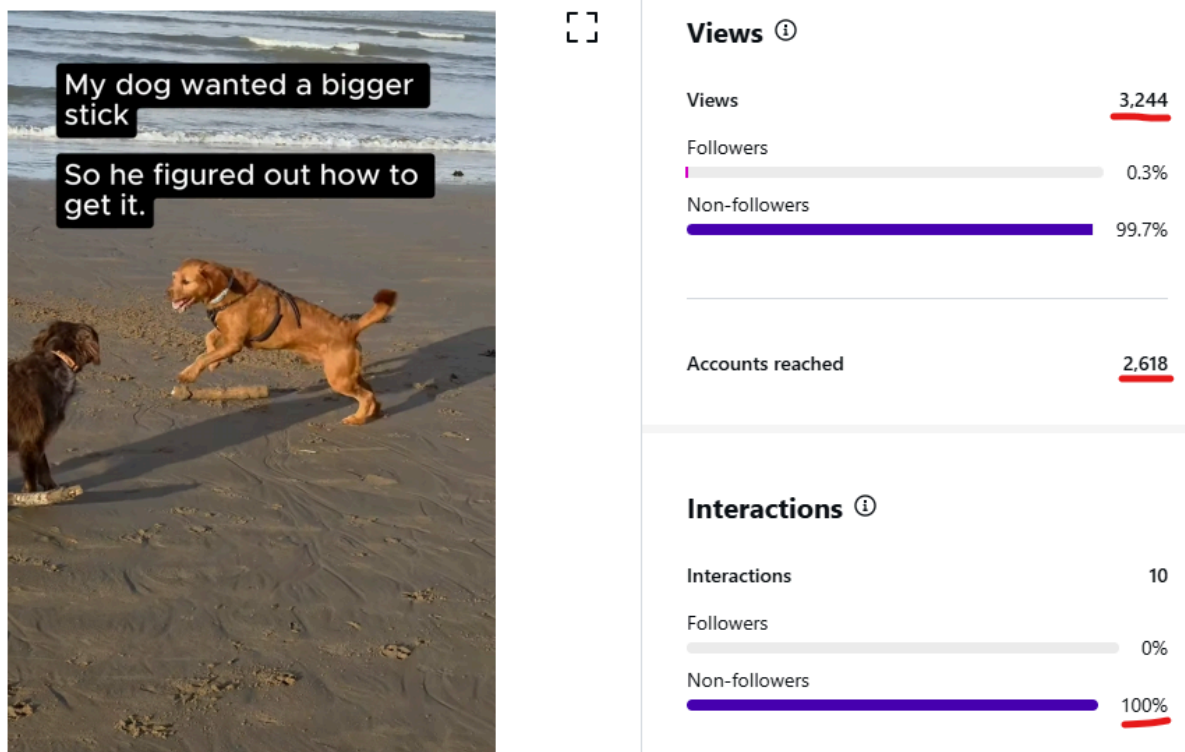

Reservations?

The Price - When I saw the price was just \$17, instead of the much higher price I was expecting I had my reservations, and certainly never expected what I received.

This is a \$200 solution for under twenty dollars, there really isn't a stone left unturned. It levels the playing field for everyone. It's a solution I believe anyone can use.

Making Videos - Lots of us don't like making videos, but B-Roll is different. There's no talking, or narration used in this type of video, I don't even need to be in the video if I don't want to.

A great example of this is Mark's own video of his dog on the beach.

Followers, Views & Instagram - Think you need 1000s of followers to do this? You don't.

My first video on a brand new Instagram account received views, yours will too, because Instagram itself pushes your video.

And if like many of us you already have an Instagram account which you use for sharing family pictures, don't worry, you won't be using that account.

Other Possible Concerns.

- I'm probably too old to do this.
- I don't have any experience.
- I'm not a technical person.
- I don't have an Instagram account.
- I've never made a video before.

None of these concerns will have any bearing on what you can achieve with Caboodl.. ***If you chose to use it.***

If you're anything like me, and you're looking for a simple way to make money online, that isn't going to swallow up all of your spare time, isn't going to cost you an arm and a leg, and does include everything you need. This is it.
